**ROGERS'****GLAD****GARDENS****W. H. ROGERS**

GREENLAWN, LONG ISLAND, NEW YORK

*Spring 1950***SPECIAL LIST****OF ONLY****MINIATURES AND SMALL FLOWERING VARIETIES**

Once again it gives me great pleasure to thank not only my many customers of past years for their fine orders, but also to express my appreciation for the great number of requests for my catalogs being received every day, which surely reflects the interest that glad lovers have in what I have to offer.

Since I am only a very small grower and as I will not buy bulbs for resale, but sell only those bulbs that I have grown in my own garden, therefore my supply is limited and on some varieties and items very limited. And because of this I do not make up my catalog until I have cleaned my bulbs and know what I have to offer so as not to list something which I do not have. By selling only the bulbs I have grown, I know that they have been properly grown, matured, handled, and cared for, all of which makes a great difference in the results to be achieved from planting them. In order to get my offerings before you as soon as possible I am issuing two lists, this one for the miniatures and small flowering ones and a little later one for the large varieties. I have also included in this list several in the 300 class which are often thought of as being the small ones and are listed by some along with them. I hope to have the catalog on the large ones ready in January and this will include some 250 or 300 choice varieties of both old and new originations.

But do not wait for this general list before ordering your miniatures and small flowering ones. Place your order for these now while selection is good and I will immediately put them aside for you and then you can add to this order after you have received the general catalog. As some of you know from past experience my supply in some of my limited items does not last long, so you should not delay ordering. The combined total of your orders will be considered as one order in determining the extras to be sent.

I have received many fine comments on the quality of my bulbs. This, I believe, is due to the fact that we have a long growing season here on Long Island and I do not rush the digging of my bulbs, but wait until not only the bulbs but the bulblets also are fully mature. This insures a maximum of germination for both. Also I have irrigation so that my stock does not suffer from drought conditions and I am glad to say that the present crop of bulbs is the best I have ever harvested.

September, 1949

"As always, your bulbs grew fine . . . . I had bulbs from at least ten growers last year. Some were sure crummy but the finest and cleanest bulbs I got were from you and . . . ."

—J. J. J., Iowa.

\* \* \*

Every bulb is hand planted, dug, cleaned and graded, therefore no cuts or bruises. All work is done by Mrs. Rogers and myself and you will find quality and service go with every order.

\* \* \*

March 5, 1949

"I was so pleased with receiving my glad bulbs and bulblets in such nice order that I thought you might appreciate knowing about it. Thanks for the overcount and your selection of good material. Believe me I will patronize you when needing any more stock.

"I can imagine you and Mrs. Rogers enjoy your work of raising and shipping glads an awful lot, by the attention you give your customers. Please let me know of your new material for sale next season."

V. L. T., Ohio.

\* \* \*

Once again I will repeat my remarks in former catalogs on purchasing and growing bulblets.

In recent years I have limited my addition of new varieties to the purchase of bulblets whenever possible and my success by this method has been very gratifying. In this way your new additions are purchased at the lowest possible cost. You can purchase varieties which you otherwise might consider too expensive and you will be surprised how quickly a few bulblets will get you started. By the purchase of bulblets you should not expect too many blooms the first year but many times you are happily surprised. Neither are you going to get the size spike you will get from the larger bulb the next year. Even though I have just suggested the purchase of bulblets, I feel that I should also give a word of caution. If handled properly some varieties will germinate almost 100 per cent, while other varieties will germinate a much smaller percentage and therefore it is not possible for me to make any guarantee as to germination. And furthermore not all varieties produce large bulblets and neither is it necessary to have large bulblets to get good germination, but they should be good, plump, mature ones. I will always send good mature ones and the largest available. In my opinion, to get best results they should be peeled or cracked before planting and then planted right away before they become dry or hard. I also believe that better germination is obtained if not planted until the ground becomes warm enough to induce prompt germination.

Bulblets from most of these small varieties germinate very well and when planted early and properly cared for produce many fine blooms, but I make no guarantee regarding this.

\* \* \*

July 24, 1949

"To date I have bloomed 7 varieties of your small glad varieties and feel I must tell you of them. They have caused much comment and almost everyone who sees them, thinks they are delightful . . . . I think every bulblet germinated for me."

Mrs. S., Pennsylvania.

\* \* \*

August 24, 1949

"Fully 75% of the bulblets are blooming or budded at this time. The face-ups, especially Piccolo and Winter Carnival, have plenty of flowers on the bulblet grown spikes for table arrangements and more than enough for use as corsages.

"I have had a number of people stop me on the street (strangers) and

ask what kind of flowers I was wearing when I was wearing a corsage of face-ups. They always look as if they only half believed me when I say miniature gladiolus." Mrs. S., Pennsylvania.

\* \* \*

**TERMS, PRICES AND SHIPMENT** — On all orders for \$5.00, or less, cash with order — over \$5.00, 25 % cash with order and balance before shipment. Minimum order \$3.00. I can not accept orders for less than the smallest unit quoted. For instance, where listed 2 for 30, one cannot be had for 15. Five bulbs can be had at the 10 rate and 50 bulblets at the 100 rate only when the price is \$1.00 or more per 100. Transportation to points within the United States will be prepaid when shipment is made at my option as to parcel post or express. Parcel post shipments cannot be made safely until spring but if shipment is desired before then, I will ship express immediately, charges collect, and include extras to help in paying such charges. As is the custom of all shippers, I will include extras anyway and in place of many complicated, discount offers, I will give additional overcount or extras depending on size of order when cash in full accompanies the order. You might suggest which you prefer. You may be sure these extras will fully cover these discounts and then some. If you have ever ordered from me you know about my generosity and if you are to place your first order you will soon be convinced.

\* \* \*

February 23, 1949

"Your card and shipment of bulbs arrived almost simultaneously and never have I seen such a wealth of overcount and extras. Thanks a lot, indeed!"

J. J. J., Iowa.

\* \* \*

I always send a card when I make the shipment so that you may know it is on the way and so be looking for it.

\* \* \*

February 15, 1949

"The glads came today in good condition. They look alright and I wish to thank you for the very generous way you filled my order. It makes me wish that I had given you my whole order instead of scattering it around."

A. J. P., New Jersey.

\* \* \*

February 23, 1949

"Your express shipment was received by me in good condition, unpacked and checked. Your overcount and extras were more than generous and muchly appreciated. Thanks a lot. The rest is up to me."

R. H. D., Rhode Island.

\* \* \*

**SUBSTITUTION** — All stock offered subject to prior sale. Remember I sell only the bulbs I have grown myself and therefore supply is limited and on some varieties quite limited, so you should order early. I will not substitute either size or variety without you so direct and will refund immediately on any item I cannot supply. If you wish substitution, I would appreciate your second choice with your order.

**GUARANTEE** — It is my intention to send out only good, clean, healthy bulbs and true to name. I make no guarantee as to growth and will in no way be responsible for the crop. If upon receipt of bulbs, you find them unsatisfactory, return at my expense and I will cheerfully refund the full purchase price. And furthermore if you later find any not true to name, I am ready to replace, refund, or make adjustment.

**INSPECTION** — My glads have been inspected by the New York State Department of Agriculture and Markets and are shipped under its certificate of inspection.

**NOTE** — Keep this list for future reference as these varieties will not appear in my general catalog which will be mailed to you later. If you mislay this, ask for another.

**NOTE** — I have received a number of Post Office money orders drawn on the Post Office, "Long Island, N. Y." There is no such Post Office but mine is "Greenlawn, N. Y."

*I am co-introducing for 1950*

## LOVELY MARY

Class 232

BY BYRON L. TROYER

ORIGINATOR'S DESCRIPTION: Champion as Seedling BUI-1 over all named and Seedling 100 and 200 sizes, all classes competing, at 1947 Indiana State Show. In class 232, this is a lovely glowing deep salmon with cream throat, nicely ruffled. Flowerheads very long, to 22 buds, opens six; propagation excellent, always straight, and fine performer, particularly under drought. Blooms in 80 days.

Bulbs \$5.00 each, any size. Bulblets 10 for \$5.00.

		large 1 1/4" & up	medium 3/4"-1 1/4"	small under 3/4"	bulblets per

200 WHITE RAYS—A good pure white on a tall wiry stem .....	2 10	.25 1.00	.20 .80		15-.25 50-.75
100 WHITE SATIN—Pure cream white with white stamens and pistil. A face up much in demand and a must-have.....	2 10	.25 1.00	.20 .80	3-.20 .60	25-.25 100-.60

	per	large 1 1/4" & up	medium 3/4"-1 1/4"	small under 3/4"	bulblets per
201 WHITE TWEEDLE—White with violet rose plume. One of my favorites and worthy of the Tweedle family.....	2 10	.20 .80	3-.25 .70	3-.20 .50	25-.25 100-.60
236 WILL SCARLET—Small clear scarlet—even though an old variety it is still one of the best small ones.....	3 10	.25 .75	.20 .50	5-.25 .40	25-.25 100-.60
107 WINTER CARNIVAL—White with edge of petals rosy pink. A face up.....	2 10		.25 1.00	3-.25 .75	15-.25
240 WISP—Very small light pink with cream throat and pointed petals.....	2 10		.30 1.20	.25 1.00	
101 WOODBURY—Creamy white with soft pink throat. Small needlepoint petals. A face up .....	1		.40	.40	
212 YELLOW BIDDLE—Orange yellow tinged pink .....	2			.30	
210 YELLOW BIRD—Clear medium yellow with no markings—opens up to 10 florets on a 15 to 18 bud spike with balance showing color. A must-have.....	1	.50	.35	.25	5-.25
210 YELLOW RIBBON—Clear bright light yellow. All florets open or show color.....	2	.30	.20	3-.25	
233 ZONA—Deep salmon with yellow throat and diffused rose pink blotches. Very good .....	2 10	.25 1.00	.20 .80		20-.25

I believe that by the time you have reached this point in my catalog you will agree that this is about the largest, if not the largest list, of miniature and small flowering varieties ever listed. I can assure you that every variety listed whether highest in price or lowest is worthy of a trial in anyone's garden.
